Inventory Forecasting Initiative

Apex Plumbing Pros

Columbus, Ohio

HVAC Inventory Forecasting Model

July 2026

- Developed and presented an automated Excel inventory forecasting model to the CEO, which was adopted to support over \$1 million in HVAC purchasing across 100+ SKUs
- Integrated ServiceTitan inventory data with 30-, 60-, and 90-day demand trends and seasonal adjustments to dynamically forecast inventory requirements and improve purchasing visibility
- Leveraged the forecasting model to support purchasing strategy and contribute to \$100,000 in supplier rebate savings in Q3 through a recurring quarterly rebate program
